

Rental Suit Standard

Especially for “**heavy duty**” circumstances like the **rental-tracks**, Arroxx developed a Rental Suit and a Rental Suit with Protection. Both suits guarantee a maximum **lifespan** at **reasonable costs**. These suits has proven to be real **Value for Money!**

The fabric has the right balance between strength and comfort and has a minimum **color-bleeding** and **shrinkage** guarantee. The **rental-zipper**, normally used in tents, has a lifetime of 10 years and 1 year is guaranteed for rental purposes. Opening at the hips ensures **access to your own pockets**. The crotch, the most vulnerable area of the suit is **reinforced** with a 2nd layer. This is a kind of underpants with a smooth surface ensuring the feet will pass before this area could be damaged. The cuffs at the ankles are replaced by **wide openings** with Velcro straps to decrease the diameter. No need to take off your shoes!

This suits can also be padded for protection against injury. Please contact us to receive more information about the Rental Suit with Protection.

This suit can also be customized. All above mentioned items can be changed and other requirements can be produced on your demand. The Arroxx Rental Suit Standard will give you the **maximum lifespan** at **reasonable costs**. These suits has proven to be real **Value for Money!**

Sizes 28-72
